"MY HOW WE'VE GROWN!"

We're shooting up so fast that one would hardly think we've been in business for 76 years.

How come?

Could it be our consistent policy of paying higher rates (present rate, 4 1/4%)? Or the extras that we offer: quarterly dividend payments, extra dividend days every month, government insured safety.

Could it be the convenience of our hometown location? Or the fact that customers know their money is being put to work right in their own community?

Or, could it be because everybody who comes in gets a nice friendly smile?

Could be.
